

**Sub-contractor Scope of Work**  
**CGC project to assist with developing Financing Modalities for**  
**Philippines Island Electrification**

The Coalition for Green Capital (CGC), a leader in Green Banks and innovative clean energy finance, seeks an experienced clean energy finance consultant to support the development of new financing techniques and modalities in the Philippines, focused on island electrification.

CGC, a 501(c)(3) non-profit, has worked at the forefront of public-private investment in renewable energy and sustainable infrastructure for a decade. CGC has helped to establish multiple Green Banks and finance programs in the U.S. and internationally that have driven over \$3 billion of clean energy investment. Through strong partnerships with development finance institutions, local government partners, private sector actors, and non-profits, CGC's portfolio of green banks and green finance programs continues to grow.

The consultant will have responsibility for supporting the development of new financing techniques and modalities in the Philippines. This individual will be supported by CGC's international team.

**Project Objective:** The objective of this project is to produce a set of recommendations for financing modality development (i.e. financial product development) with a local development bank, that can best serve the needs for island electrification in the Philippines. In addition to the financing mechanisms, the project will assess institutional capacity needs of the development bank, to support the roll-out of the program, and to enable the scale-up of investment in island electrification.

**Qualifications:**

- 4+ years of experience in clean energy or climate consulting, finance, or related role or field
- Experience scoping and executing research projects, including experience collecting, organizing, and synthesizing quantitative and qualitative data related to financial products or investment programs
- Experience working in emerging markets and/or with development finance institutions, preferably in SE Asia
- Highly entrepreneurial; able to take initiative and take action without explicit direction, and comfortable operating independently in ambiguous project situations
- Highly focused on execution and output, not process
- Enthusiasm for creating an impact with a mission-driven organization
- Strong project management skills with proven success at meeting deadlines
- Bachelor's degree required, master's or other advanced degree preferred but not necessary

**Primary Activities:** The consultant will support CGC staff and the CGC project lead on the development of research and recommendations for project partners in the Philippines. This work will include researching and synthesizing information for a variety of sources, including: national energy plans and regulations; lending policies, bylaws and investment criteria; stakeholder interviews; international case studies on rural electrification; etc.

**Deliverables:** The work will entail supporting CGC in the creation of work products including a written report and presentation slides. These deliverables will cover information including: international case studies; barriers and opportunities related to Philippines island electrification, draft investment criteria and financing modality recommendations; and institutional capacity development needs.

**Contract term:** The contract will begin immediately, or as soon as possible, based on availability of the contractor. The contractor will work on a part-time, intermittent basis. The work will be completed based on a clear project work plan with interim deliverables and scheduling, to be developed in coordination with the core CGC team. The contract term is approximately 5 months, with the term ending in approximately July 2020.

**Location:** Consultant will work remotely, with preference for location in New York City, Washington DC, or Manila, to facilitate meetings and interactions with the project team.

**Compensation:** CGC offers competitive compensation, based on the part-time work and deliverable schedule, and based on the qualifications and experience of the applicant.

**About Coalition for Green Capital:** The Coalition for Green Capital (CGC) is a non-profit organization focused on accelerating the growth of clean energy and low-carbon, climate resilient infrastructure through the creation of Green Banks.

CGC offers a unique and proven capacity as the leading creator, advocate, and expert on Green Banks since 2009 and works directly to support the formation of Green Banks with governmental and civil society partners. CGC also provides on-going consulting and guidance to operating Green Banks.
