Methodology

- conducted n=2,230 interviews online among eligible voters November 12-19, 2020
  - n = 618 (margin of error +/- 3.9 percentage points)
  - n = 400 (margin of error +/- 4.9 percentage points) in Alaska
  - n = 435 (margin of error +/- 4.7 percentage points) in Florida
  - n = 424 (margin of error +/- 4.8 percentage points) in North Carolina
  - n = 413 (margin of error +/- 4.8 percentage points)

- Respondents are representative of 2020 voters demographically (age, gender, ethnicity, education) and politically (Biden/Trump)

Polling conducted by Claster Consulting on behalf of the Coalition for Green Capital, a 501c3 nonprofit that works to expand clean energy markets and address climate change by forming mission-driven finance institutions known as "green banks."
