

**Coalition for
Green Capital**

**CGC Polling Results: 7 out of 10 Voters
Nationally want Government to Fund the
Non-Profit National Climate Bank**

*Coalition for Green Capital
May 2020*

4 out of 5 voters nationally want the government to create jobs in clean energy

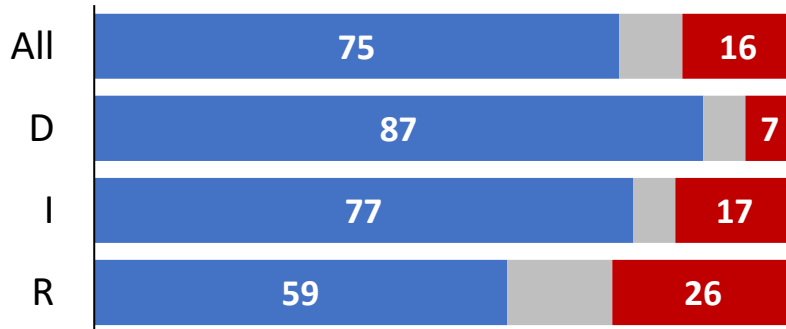

Do you think the US government should invest in creating jobs that build clean energy infrastructure, such as wind turbines, solar panels, power lines, and electric vehicle charging equipment?

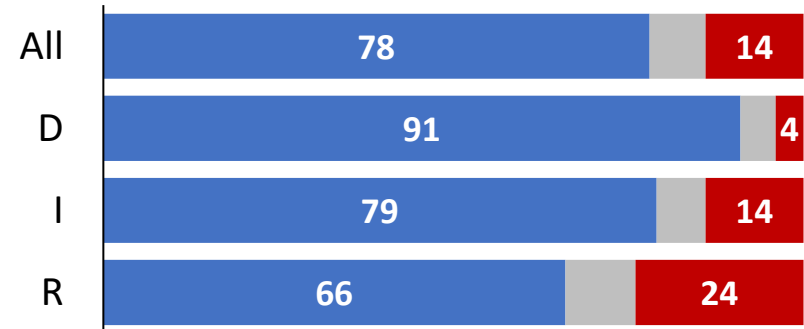

Even in swing states, voters want clean energy jobs by a 4-to-1 margin, including a majority of Republican voters

Do you think the US government should invest in creating jobs that build clean energy infrastructure, such as wind turbines, solar panels, power lines, and electric vehicle charging equipment?

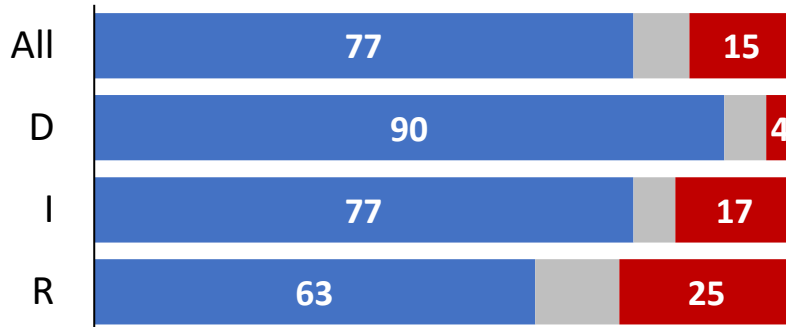

Pennsylvania

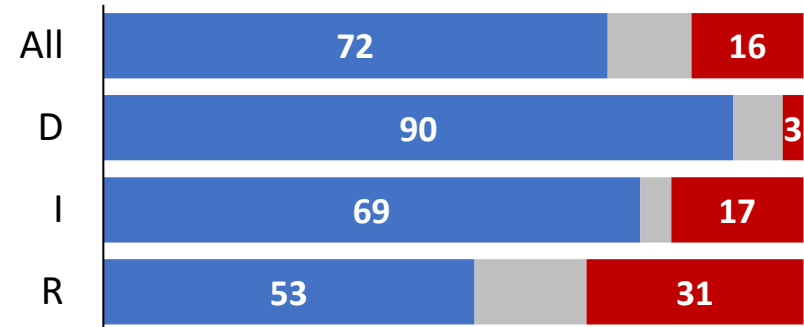

Arizona

Michigan

Wisconsin

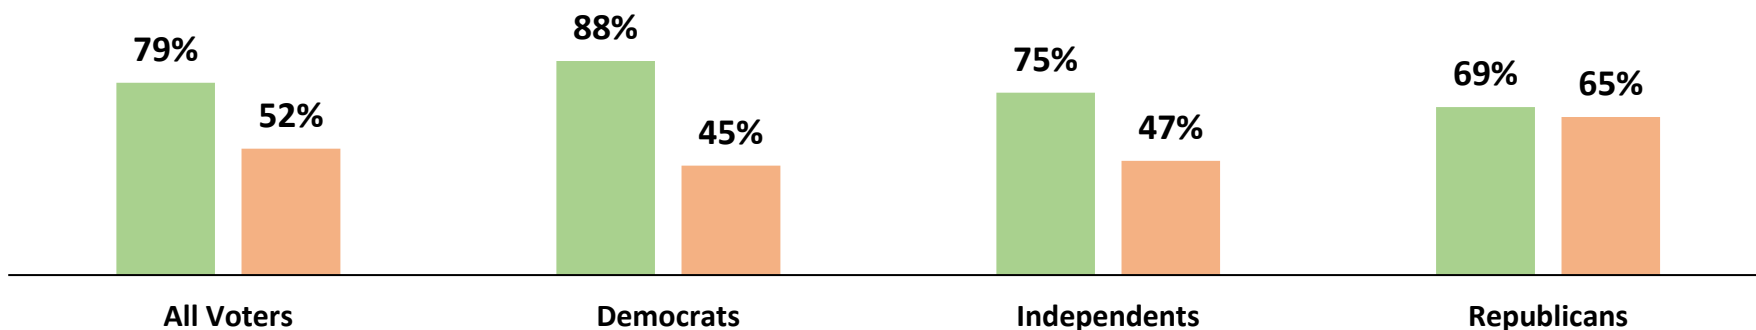

Voters strongly prefer government investment in clean energy jobs over fossil fuel jobs, even Rs in Pennsylvania

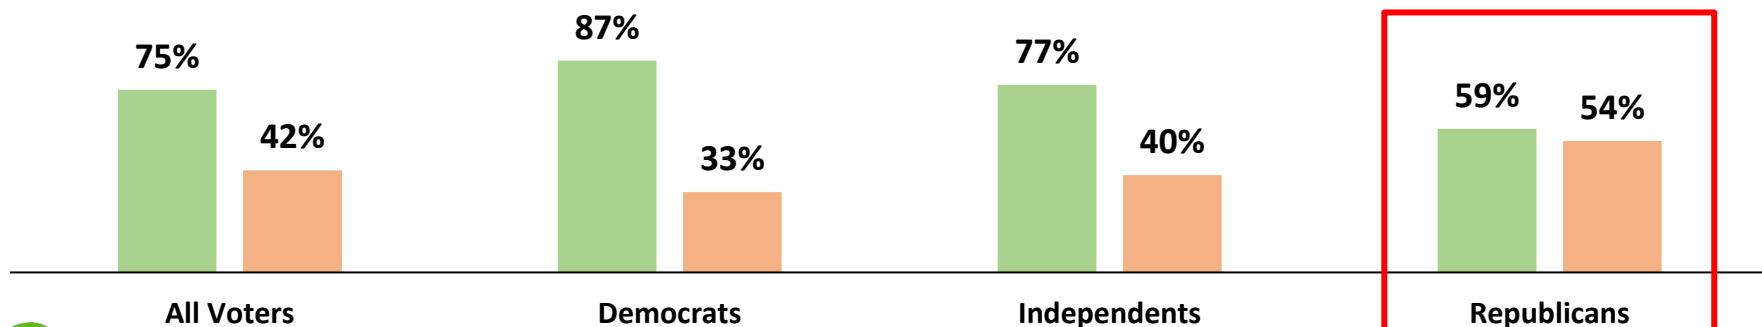

Do you think the US government should invest in creating jobs that build clean energy infrastructure, such as wind turbines, solar panels, power lines, and electric vehicle charging equipment?

Do you think the US government should invest in creating jobs in drilling for oil and gas and mining for coal?

Voters Nationally

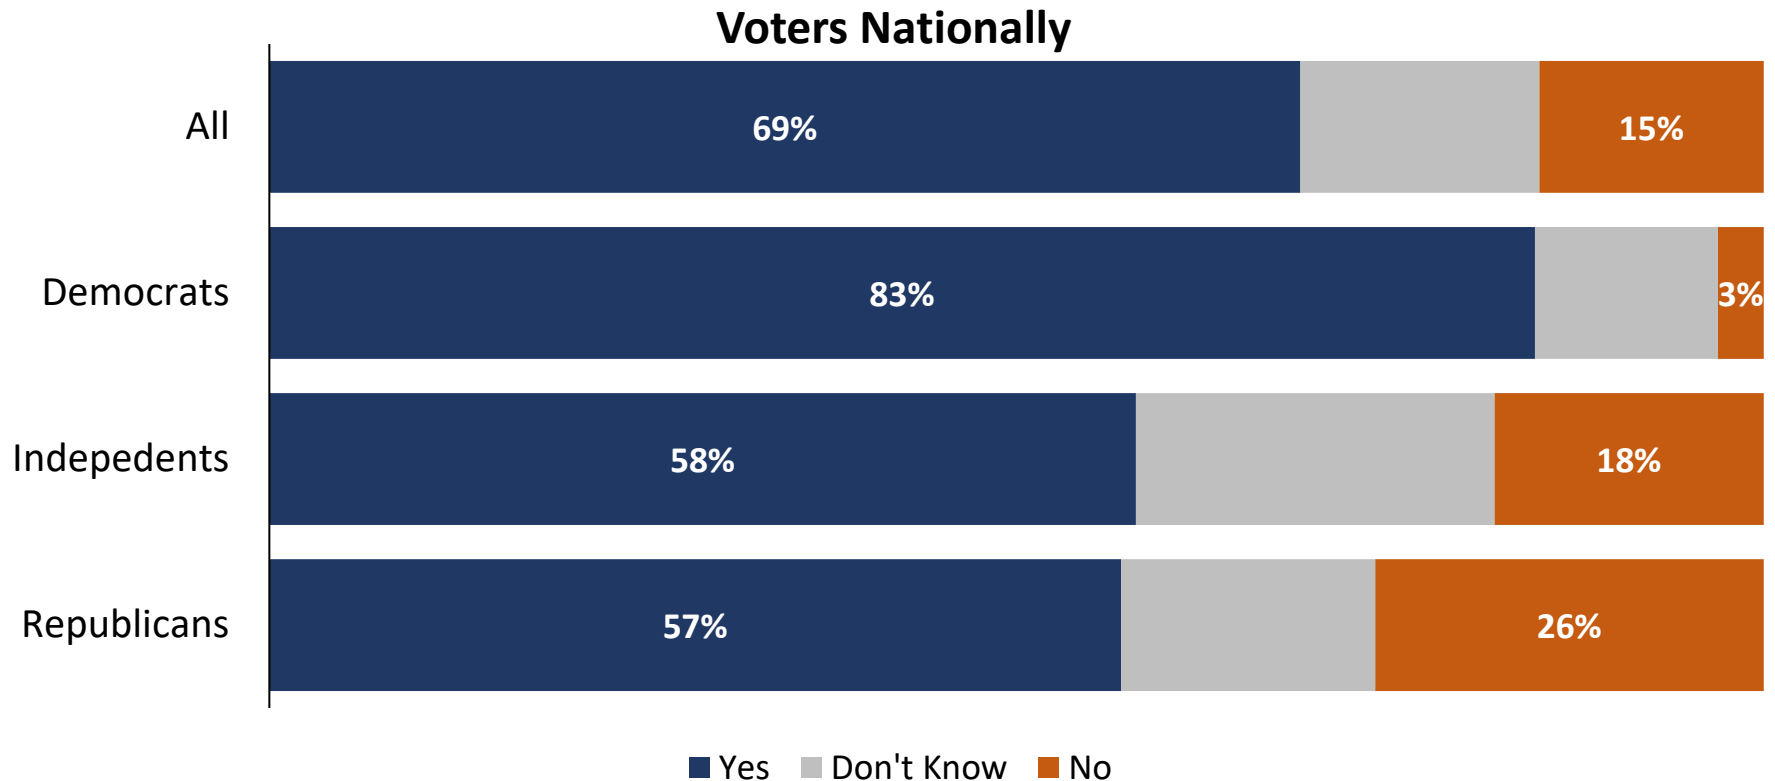

Pennsylvania Voters

7 out of 10 voters want Congress to deposit \$35B in nonprofit, nonpartisan National Climate Bank

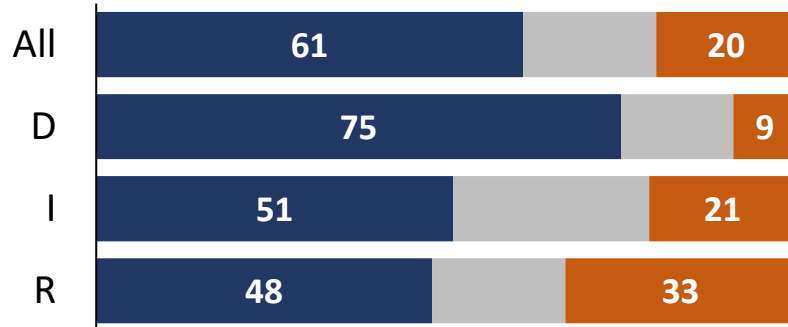

Do you think the US government should pass a law that deposits \$35 billion in a nonpartisan nonprofit fund that would create five million new jobs in clean energy? This plan would ensure that consumers pay the same or less for electricity than we pay today.

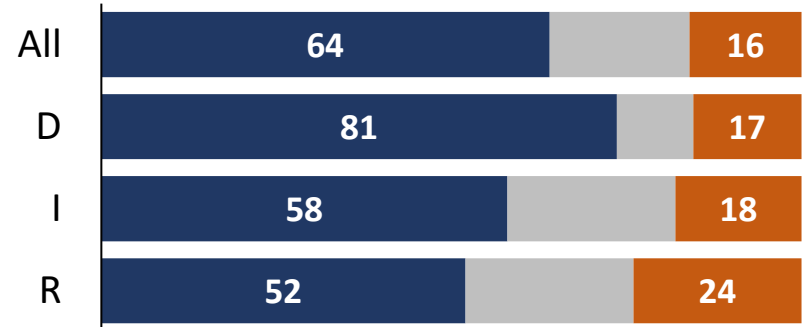

Voters in swing states want Congress to capitalize the National Climate Bank by 3-to-1 margin

Do you think the US government should pass a law that deposits \$35 billion in a nonpartisan nonprofit fund that would create five million new jobs in clean energy? This plan would ensure that consumers pay the same or less for electricity than we pay today.

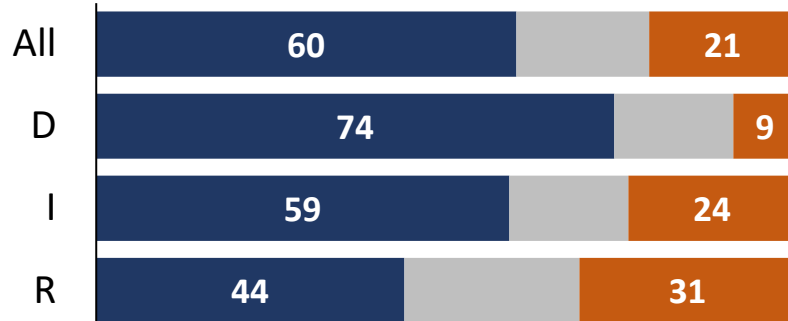

Pennsylvania

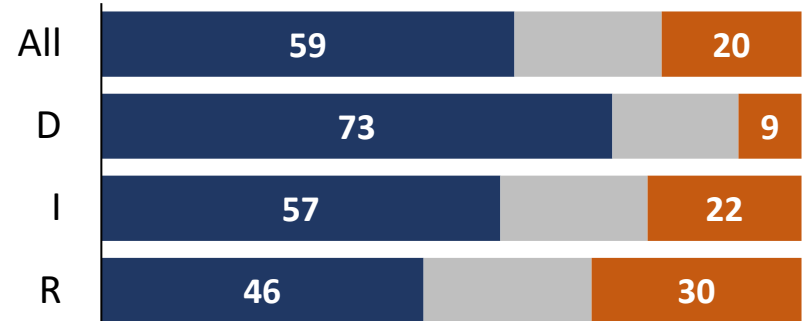

Arizona

Michigan

Wisconsin

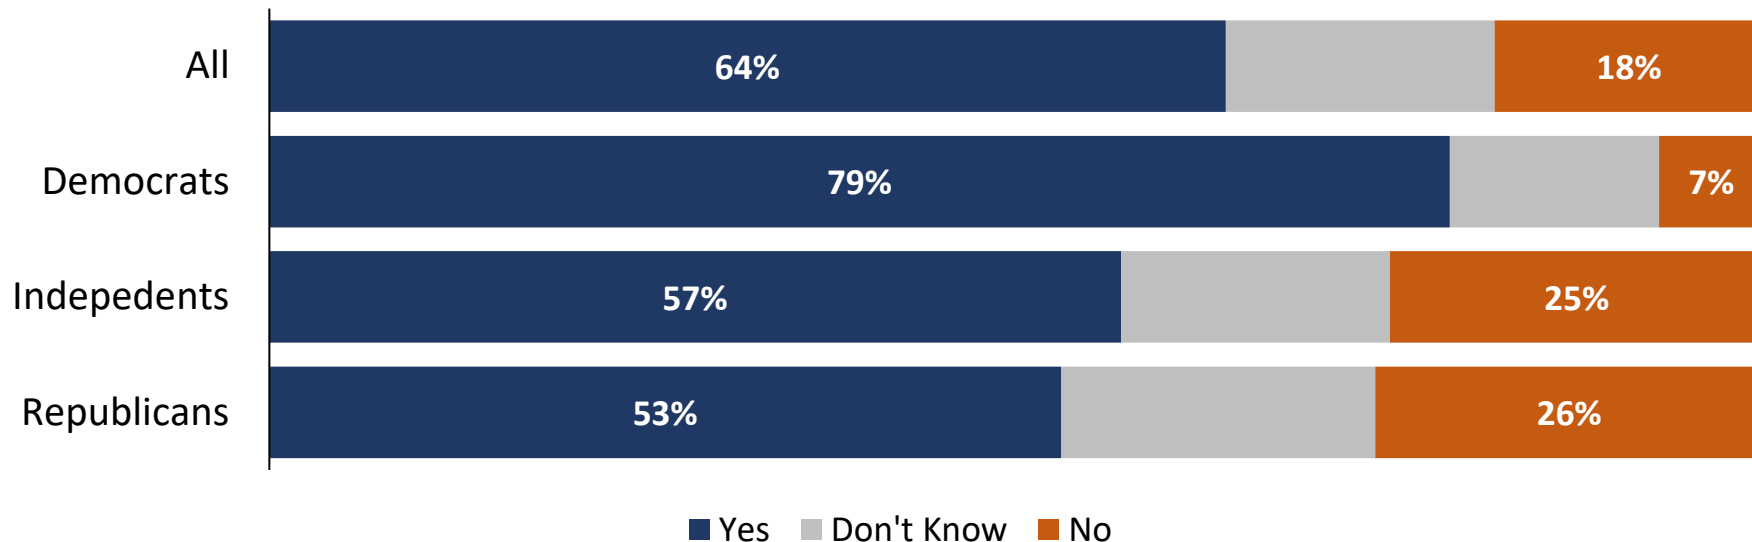

Even R voters in DCCC Frontline districts support National Climate Bank by 2-to-1 margin

Do you think the US government should pass a law that deposits \$35 billion in a nonpartisan nonprofit fund that would create five million new jobs in clean energy? This plan would ensure that consumers pay the same or less for electricity than we pay today.

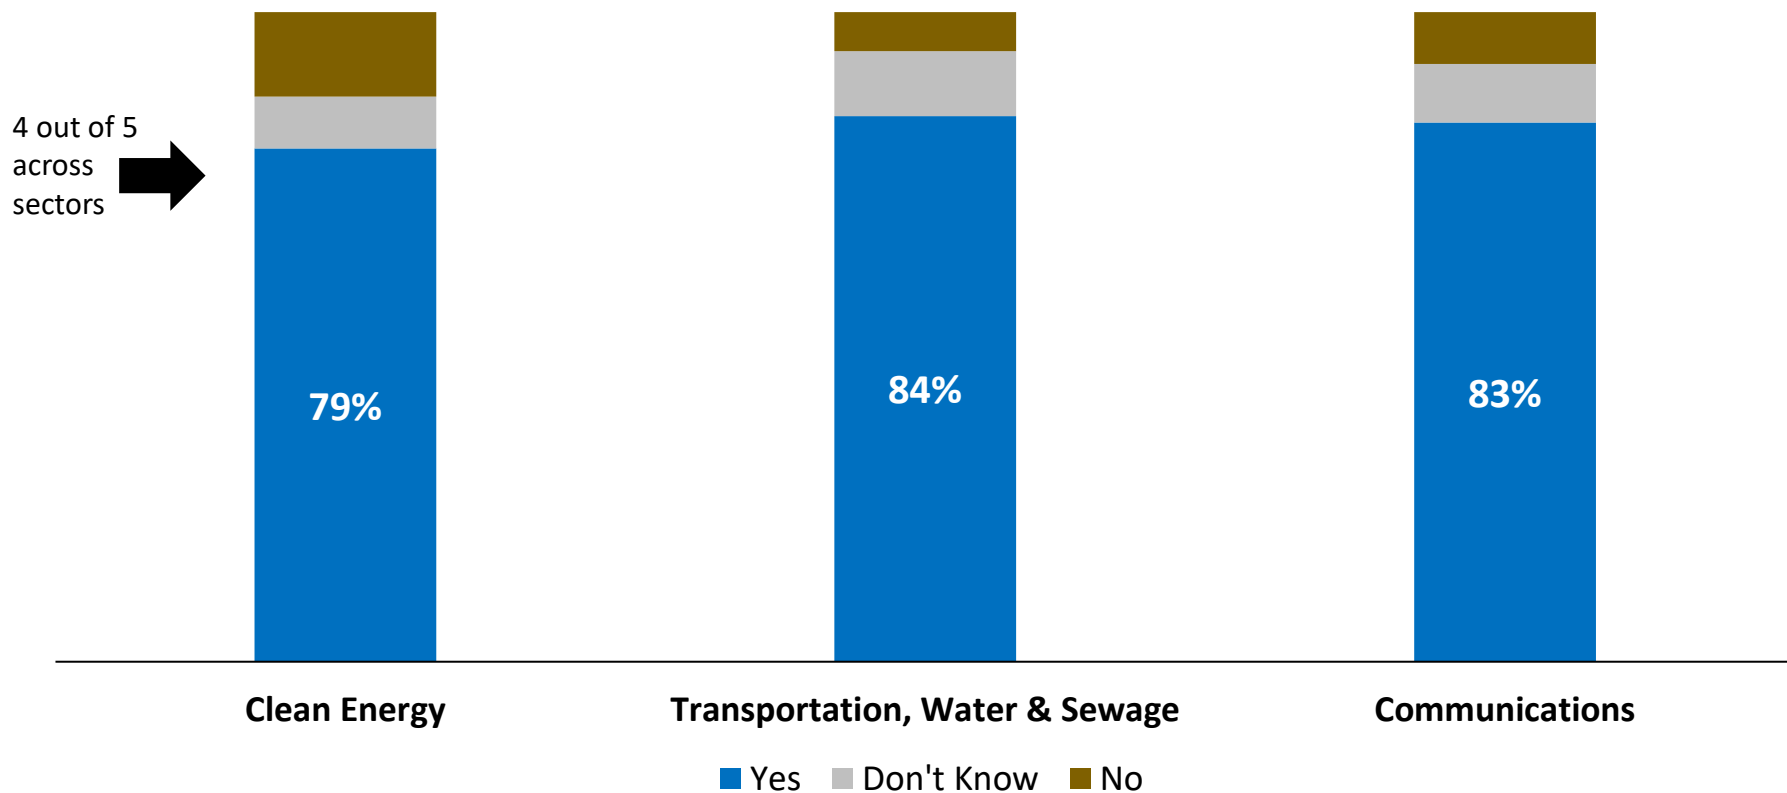

Voters in DCCC Frontline House Districts

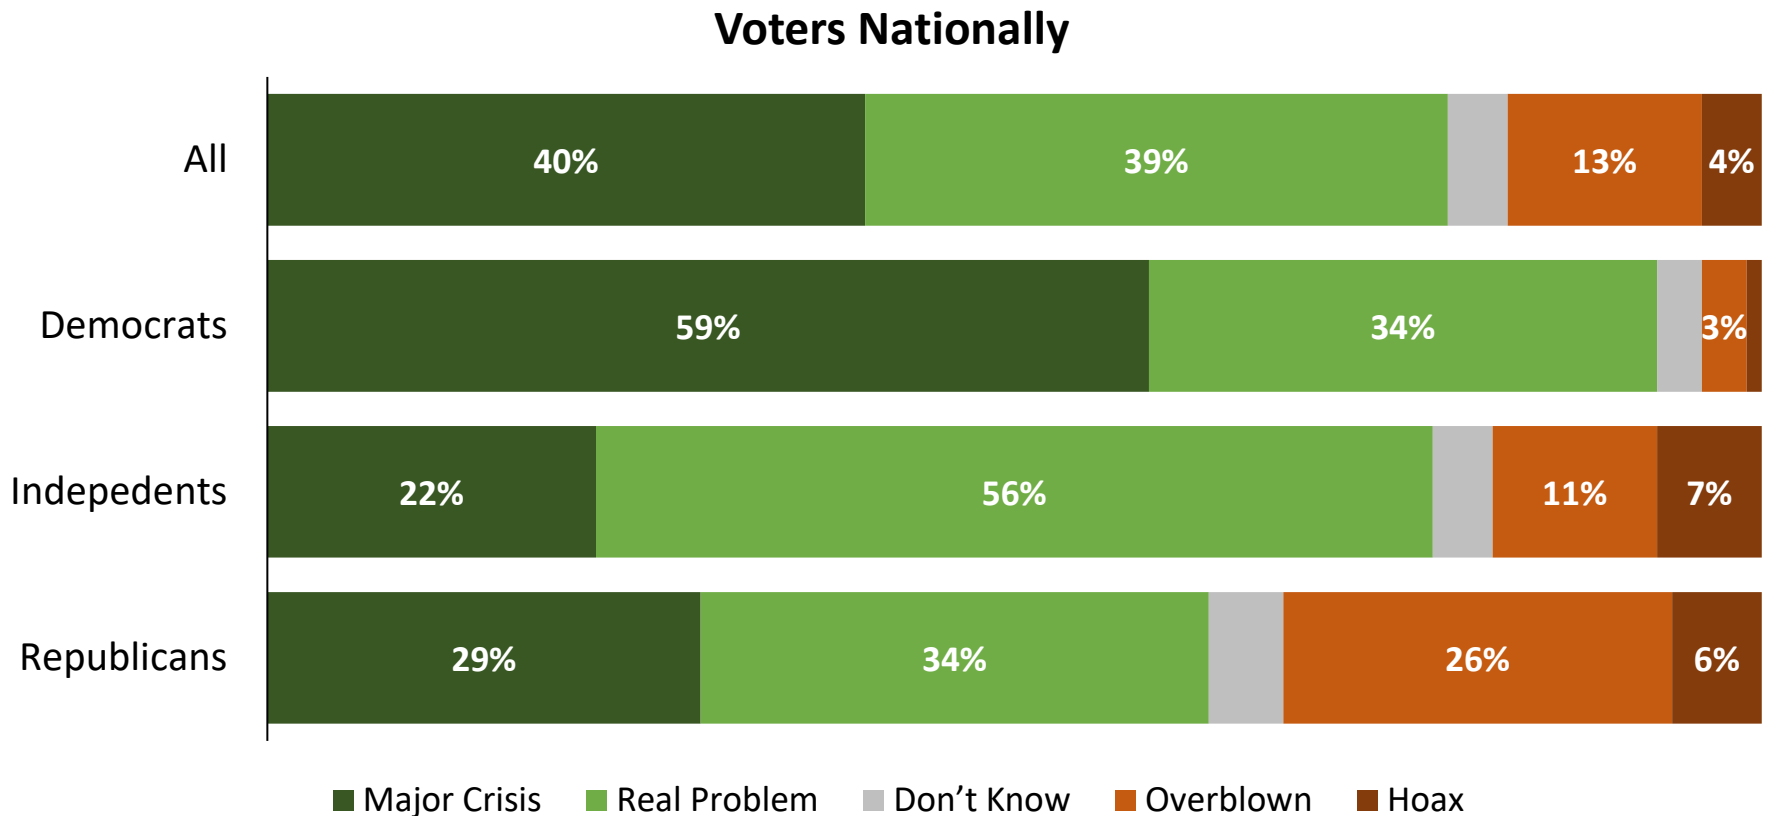

Support for investment in clean energy jobs is just as high as other forms of infrastructure

National Voter Support for Job Creation in Infrastructure

4 out of 5 voters say climate change is a Major Crisis or a Real Problem; 2/3rd's of Rs think USG should take action

Which is closest to your view? 1. Climate change is a major crisis and we need to take emergency measures to deal with it right now; 2. Climate change is a real problem and we need to take reasonable steps to reduce climate change; 3. Climate change is overblown and we don't need to do anything about it; 4. Climate change is a hoax and we don't need to do anything about it

Methodology

- Conducted n = 4,242 interviews online among likely voters nationwide April 23 –May 1
 - n = 610 respondents nationwide
 - n = 607 respondents in 2020 Frontline US House districts
 - n = 605 respondents in Arizona
 - n = 604 respondents in Colorado
 - n = 606 respondents in Michigan
 - n = 604 respondents in Pennsylvania
 - n = 606 respondents in Wisconsin
- Margin of error is +/-4 percentage points
- Respondents are demographically representative of likely 2020 voters (gender, age, ethnicity)
- Don't know and other low incidence responses may be omitted
- Small subgroups may be omitted due to small sample size (Hispanic MI, PA and WI; African American AZ, CO and Frontline)
- US House districts are US House districts identified by the DCCC as competitive in 2020

Polling conducted by Claster Consulting on behalf of the Coalition for Green Capital, a 501c3 nonprofit that works to expand clean energy markets and address climate change by forming mission-driven finance institutions known as "green banks."
